CLAIMS 1-308 ARE PENDING

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-66 and 72-137, drawn to navigating or providing a virtual directory of the web, classified in class 707, subclass 2.
- II. Claims 67-71 and 138-308, drawn to a graphical user interface with an intended use of application to a virtual directory of the web, classified in class 345, subclass 700+.

The inventions are distinct, each from the other because:

Inventions II and I are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as navigation through a hierarchy of web pages that do not comprise a virtual directory. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
